Hanh,

I will forward to Alaska DEC. We will be forthcoming soon with a response document on the draft GGP EMP.

Regards,

Greg

Good morning, Greg,

We have not shared the info with DEC so it would be great if you would forward them the information. We are in the process of reviewing the information you sent. Of course, as you know, we have not received all the responses to-date from Shell.

We will be in touch if a follow up meeting or conversation is needed, but at this time neither a meeting nor a date is planned.

Thanks,

Hanh

Good day Hanh and Erin,

I'm trying to gauge the timing and magnitude for follow-on conversations or a meeting on the responses Shell has provided to date. Do you have a sense of if, or when we might wish to have this? We have some upcoming travel constraints for folks we anticipate may be necessary.

Also, has EPA shared our responses to date with Alaska DEC (DEC)? It might be helpful if DEC was included, so far I elected to defer to you for sharing. I can share if you wish.

Cheers,

Greg

**Subject:** Draft NPDES Geotechnical General Permit (AKG-28-4300) - Effluent Testing

Hanh,

Please find attached a response from Shell on a requirement for effluent testing in the draft geotechnical general permit (GGP).

I look forward to discussing with EPA any questions or comments on the attached.

Sincerely,

Greg Horner

Shell

Offshore Regulatory Team Lead
